"I have worked with Ellen for over a year and together we delivered some major projects for major brands. One thing that I really enjoy is her ability to distill bigger problems into simpler tasks. She's good about realizing the mile markers for projects and pacing everything from concept to completion. Internal communication with artists and external to clients is always important for successful projects and I have always felt she has had my back when it comes to meeting expectations and delivering projects."

"Ellen is a joy to collaborate with. I've had the pleasure of working with her on many complex projects and she oversees the details and makes sure everyone involved has a clear direction like a seasoned air traffic controller. Not an easy task these days to get all the planes landed safely and on time. Ellen allows the many creative artists involved to concentrate on the work at hand while she maintains excellent communication with the various clients, agencies and production companies. She keeps everyone in the loop in the most professional manner. Whenever Ellen is part of the team, I know everything is just handled. I always feel that she has my back. Oh, and she has a great laugh when a little comic relief is needed. If you ever have the occasion to work with Ellen, even the most complicated and challenging project is brought down a few notches from, this could all go horribly wrong to, yeah, we got this."

"Ellen is confident, reliable and hard working. Her positive attitude combined with strong organizational skills and a fun personality make her a wonderful asset to any team. I look forward to watching Ellen flourish in the industry."

— **Beth Cooper**, *Business Manager, The Filmworkers Club*, worked with Ellen at Filmworkers Club

"Ellen is always on top of her game. Every day I watch her as she seamlessly juggles scheduling, client services, bidding, and producing several big jobs at once. Ellen does all of this while keeping a big smile on her face. She is such a delight to be around and her positive attitude is highly contagious."
